

# A PRIMER ON HYBRID WORKPLACES

Everything You Need to Set Up One

# INTRODUCTION —

As we speak, Pfizer is distributing the COVID-19 vaccines. SpaceX launched astronauts to ISS for the second time. We have an insight into the “Fabulous Lives of the Bollywood Wives. And **77% of Indians** are done with remote working.

With the availability of a vaccine in sight, does our chances of resuming office increase? Well, yes and no.

While the majority have already started returning to the office, there are some who might opt for indefinite remote working. This gives rise to the concept of hybrid workplaces!

Don't worry, we won't start with “What are Hybrid Workplaces”! Too much has already been said about it 😊

But the hybrid workplace model adopted can vary across organizations. How do you know which hybrid workplace model suits your workplace the best? We have got you covered.

“Technology now allows people to connect anytime, anywhere, to anyone in the world, from almost any device. This is dramatically changing the way people work, facilitating 24/7 collaboration with colleagues who are dispersed across time zones, countries, and continents.”

— Michael Dell, CEO, Dell Technologies

# TYPES OF HYBRID WORKPLACE \_\_\_\_

## Alternating on-site:

In this model, 25% to 50% of employees visit on-site on alternate days or weeks for collaboration within and/or across functions. This is the most common one and is being adapted at large.

## On-site on-demand:

50% to 75% of employees in this model go to the office only on designated days. To make this model effective, organizations have assigned days to each team. Effective to the “e”!

## Connected remote:

90% to 95% of employees in this model come to the office once a month for affiliation or other purposes. Wait, that’s what most of us have been doing ever since Unlock 1.0!

## Work from Anywhere:

In this model, 100% of employees have no requirement to come to the office. Complete remote working. Hello pajamas!

# WHAT YOU NEED TO ESTABLISH A HYBRID WORKPLACE? —

**Identifying employees** eligible and ready to work from the office

**Scheduling mechanism** to enable employee rotation between onsite and remote work

**Real-time update** on whether employees are working in formals or in pajamas

**Ensuring that employees wear masks ALL THE TIME!** (No Mask, No Entry!)

**Enabling employees to book** office assets like parking, desks, meeting rooms, the cafeteria on demand

**Contactless access management** to the office

Floor plan based **flexi-desking** to prevent playing musical chair every day

**Adhering to social distancing norms** in all common areas

**Regular sanitization** of desks, equipment, and all common areas (Safe Office, Happy Employees!)

**Tracking utilization levels of office assets** for future optimization

**Coordinating** multiple teams (HR, Facilities, Business etc.) to implement hybrid workplace policy

**Carrying out the above-mentioned activities without making remote employees feel left out**
